Main game

Game Theme & Graphics

In this classic Bollywood Story™, our two young lovers cannot be united until they are considered equals.

The boy acquires great wealth when the girl secretly gives her beloved a precious stone, making a great wedding possible.

Now, against all odds, not even the evil parents can stand in the way of their happiness.

The wedding ceremony unfolds in Free Spins, when the two loving hearts are finally united.

Main Game

Players can select the coin value and bet level before starting the game round.

- Game actions.** The buttons on the key pad perform the following different game actions:

BET LEVEL	Clicking the left and right arrows increases and decreases the bet level (i.e. number of coins per bet line) by 1. To increase or decrease faster, the player can click and drag the slider below.
	Clicking the Spin button starts a game round at the current bet level and coin value.
MAX BET	MAX BET plays the game at the highest bet level and the current coin value.
COIN VALUE	Clicking the left and right arrows increases and decreases the coin value to the next level. To increase or decrease faster, the player can click and drag the slider below.
AUTOPLAY	Clicking AUTOPLAY automatically plays the game for the selected number of rounds.

The Wild symbol

### Floating Wild

During every spin in the main game and in Free Spins Floating Wilds appear and land on top of regular symbols, turning them into Wilds.

In the main game between 2 and 4 Floating Wilds are created every spin. In Free Spins the odds of winning increase even more - between 3 and 6 Floating Wilds appear every time the reels spin!

The Scatter symbol

### Free Spins

Scatter symbols appearing in both the main game and in Free Spins activate the Free Spins feature and pay out according to the table below.

SCATTER SYMBOLS	FREE SPINS WON
3	10
4	20
5	30

### Randomisation

#### RANDOM NUMBER GENERATOR (RNG)

The algorithm used for random number generation (RNG) is Fortuna, a cryptographically secure pseudorandom number generator (PRNG) devised by Bruce Schneier and Niels Ferguson. For more information, see the document Random Number Generation.

The Random Number Generator and its implementation has been tested and approved/certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.

#### ALGORITHM FOR A RANDOM REEL POSITION

A reel represents an array of symbols where each symbol has an index ("a position").

1. A random number between 0 (zero) and the length of the reel is acquired.
2. The random number is added to the game as "the new reel position to use".

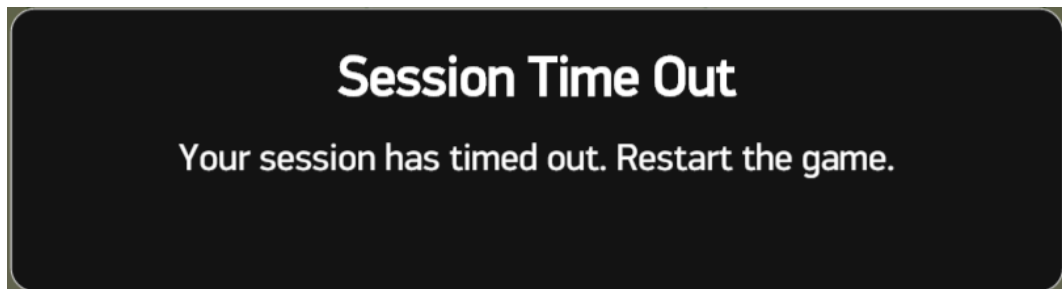

### Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

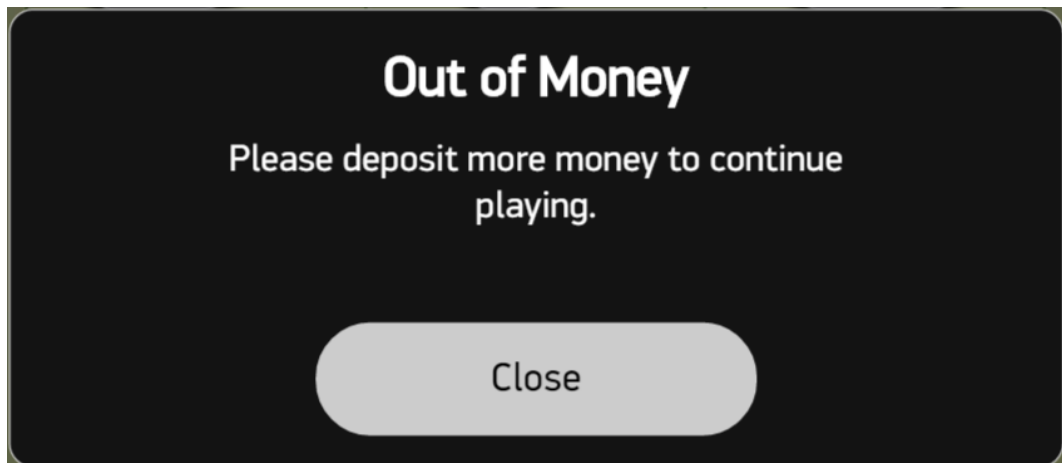

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.

If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

In case of an "out of money" event, an "out of money" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

Information regarding session timeouts and malfunctions is provided to the player via the game rules. Specifically, the player is informed that "In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded."

### Information to the Player

Players receive a response required message every hour of continuous play: They cannot continue playing unless they respond to the message which provides them with details about the amount bet and won so far during game play.

Players also have access to their game session history and game rules from within the game at all times.
