Main Game

Game Theme and Graphics

Step into the world of ancient Greece to experience the legendary creatures and undiscovered riches from a forgotten world.

3 golden Bonus symbols activate the sparkling Jackpot Bonus game, where all spins are free. Filling the rows with golden coin Bonus symbols awards one of the 3 Jackpots. Every new Bonus symbol appearing on the reels resets the number of spins to 3!

Main Game

Players can select the coin value and bet level before starting the game round.

- **Game actions.** The buttons on the key pad perform the following different game actions:

	Clicking the left and right arrows increases and decreases the bet level (i.e. number of coins per bet line) by 1. To increase or decrease faster, the player can click and drag the slider below.
	Clicking the Spin button starts a game round at the current bet level and coin value.
	MAX BET plays the game at the highest bet level and the current coin value.
	Clicking the left and right arrows increases and decreases the coin value to the next level. To increase or decrease faster, the player can click and drag the slider below.
	Clicking AUTO PLAY automatically plays the game for the selected number of rounds.

Wild on Wild Feature

Wild on Wild Feature

- In both the main game and Free Spins, the Wild on Wild feature is activated when an Overlay Wild lands on a Wild symbol.
- After the Wild symbol expands to cover the entire reel and all bet wins are awarded for that spin, each Wild symbol shifts one place vertically on the reels and a Re-Spin is awarded with 2 Overlay Wilds on the reel.
- If 3 or more Free Spins symbols appear in the same spin as a Wild symbol, any Falling Wilds Re-Spins that are won in the round that activated Free Spins are played after Free Spins is completed.
- In the main game only, if 3 or more Bonus symbols have been collected after the final spin of an entire round, including Falling Wilds Re-Spins, the Jackpot Bonus game is activated.

Falling Wilds

Falling Wilds Re-Spins

- Wild symbols substitute for all symbols except Free Spins symbols and Bonus symbols.
- After a Wild symbol appears on the reels and all bet wins are awarded for that spin, each Wild symbol shifts one place vertically on the reels and a Falling Wilds Re-Spin is awarded, in both the main game and Free Spins.
- Wild symbols that shift vertically during Falling Wilds Re-Spins are called Falling Wilds.
- Wild symbols continue to activate Falling Wilds Re-Spins until they disappear from the reels. A Falling Wilds Re-Spin is still awarded when the Wild symbol on the bottom row falls off the reels.
- Additional Falling Wilds Re-Spins can be won during a Falling Wilds Re-Spin.
- A Bonus symbol can not appear on the same reel as a Falling Wild in the main game, as long as the Falling Wild is active. Bonus symbols do not appear during Free Spins.
- Both Free Spins and the Jackpot Bonus game can be won during a Falling Wilds Re-Spin.

Free Spins

Jackpot Bonus Game

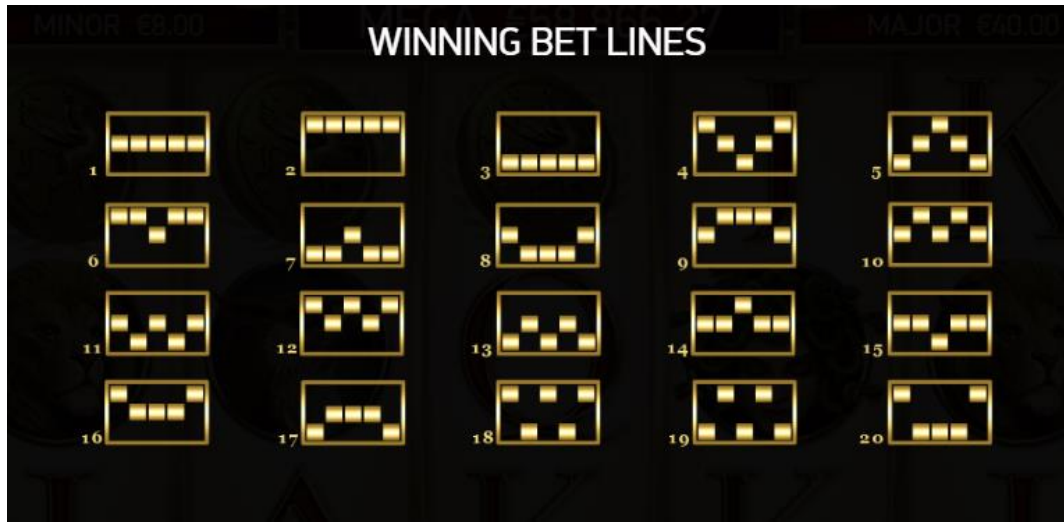

Free Spins

- In Free Spins, any Wild symbol appearing on the reels becomes an Expanding Wild which automatically expands to cover the entire reel.
- 3 or more Free Spins symbols appearing anywhere on the reels in the main game, including during Falling Wilds Re-Spins, activate Free Spins.
- Additional Free Spins can not be won during Free Spins.
- At the end of Free Spins, the game returns to the round that activated Free Spins.

Jackpot Bonus Game

- All spins within the Jackpot Bonus game are free!
- The Jackpot Bonus game is activated when 3 or more Bonus symbols are collected in the main game only, including Falling Wilds Re-Spins.
- The collected Bonus symbols are randomly placed on the reels before the start of the Jackpot Bonus game.
- The Jackpot Bonus game has 15 independent reels, spinning individually.
- Each Bonus symbol has a random coin win value of 10 – 200 x bet level.
- The player starts the Jackpot Bonus game with 3 spins, the number of spins resets to 3 when a Bonus symbol lands on the reels during a spin.
- Bonus symbols appearing anywhere on the reels in the Jackpot Bonus game remain on the reels until the Jackpot Bonus game ends.
- A Jackpot can be won in the Jackpot Bonus game:
 - If one entire row is filled with Bonus symbols, the Minor Jackpot is won.
 - If two entire rows are filled with Bonus symbols, the Major Jackpot is won.
 - If all three rows are filled with Bonus symbols, the Mega progressive Jackpot is won.
- A Jackpot can only be won during the Jackpot Bonus game and only one Jackpot per Jackpot Bonus game.
- At the end of the Jackpot Bonus game, the game returns to the round that activated the Jackpot Bonus game.

Randomisation

RANDOM NUMBER GENERATOR (RNG)

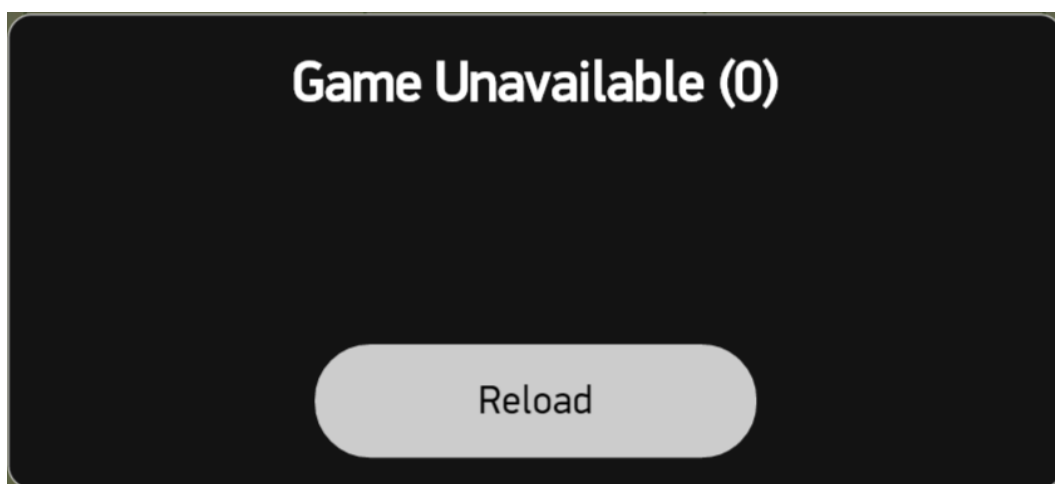

The algorithm used for random number generation (RNG) is Fortuna, a cryptographically secure pseudorandom number generator (PRNG) devised by Bruce Schneier and Niels Ferguson. For more information, see the document Random Number Generation.

The Random Number Generator and its implementation has been tested and approved/certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.

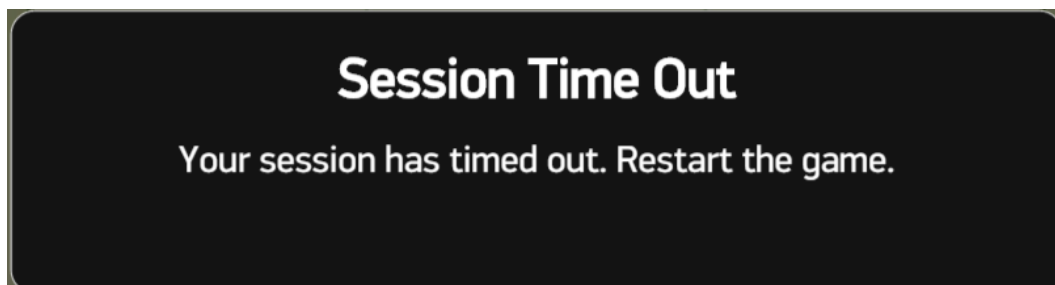

Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

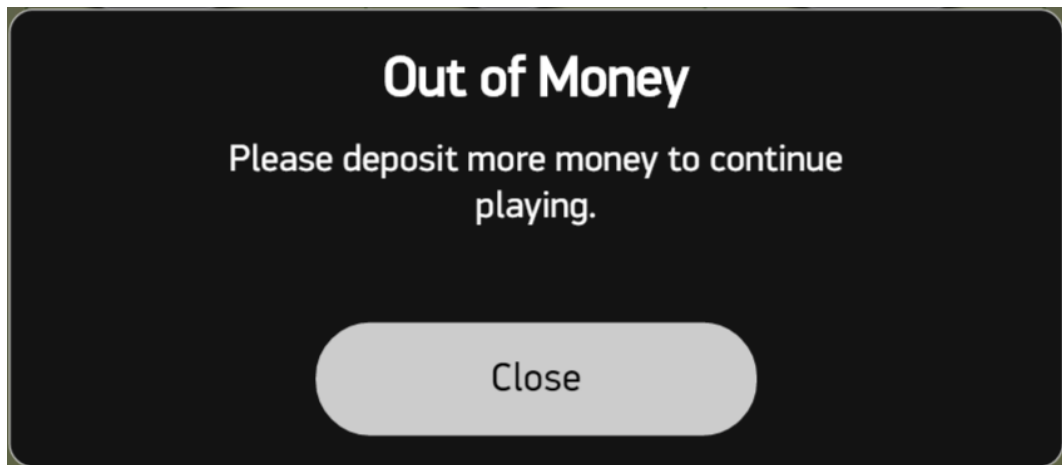

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.

If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

In case of an "out of money" event, an "out of money" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

(Italy jurisdiction only) Further information on management of malfunctions is also described in section 3.2.1 of the Gaming Platform (Progetto Della Piattaforma Di Gioco) document. This document provides details on how a player is informed of balance return payments and the technical process.

Information regarding session timeouts and malfunctions is provided to the player via the game rules. Specifically, the player is informed that "In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded."

Information to the Player

Players receive a response required message every hour of continuous play: They cannot continue playing unless they respond to the message which provides them with details about the amount bet and won so far during game play.

Players also have access to their game session history and game rules from within the game at all times.
