Sticky Wild Re-Spins

Sticky Wild Re-Spins

Wild symbols appear on reels 2, 3 and 4 in the main game and on all reels in Free Spins.

2 or more Wild symbols appearing on the reels in the main game act as Sticky Wilds and award a Sticky Wild Re-Spin.

All Sticky Wild symbols on the reels from the spin that activated the Sticky Wild Re-Spin remain in the same position on the reels during the Sticky Wild Re-Spin.

An additional Sticky Wild Re-Spin is awarded, if one or more visible Sticky Wilds appear on the reels during the Sticky Wild Re-Spin.

Wild symbols landing behind the Sticky Wilds are not considered visible. Sticky Wild Re-Spins end when no new visible Sticky Wilds appear during the Sticky Wild Re-Spin.

No Random Features or Bonus Features can be activated during the Sticky Wild Re-Spin. If 3 Bonus symbols that activate the Bonus Features and 2 or more Wild symbols that activate the Sticky Wild Re-Spin land on the reels in the main game at the same time, the Bonus Feature is played first.

Sticky Wild Re-Spin wins are added to any wins from the initial spin.

Random Features

Random Features

The 3 Random Features are: Fairy Magic Spin, Fairy Surprise and Fairy Wild Spin.

Random Features are activated randomly in the main game.

Random Features can not be activated during Sticky Wild Re-Spins or Free Spins.

Random Features can not be activated at the same time as a Bonus Feature.

Fairy Magic Spin

Fairy Magic Spin

In this Random Feature, a random cluster of 5 to 9 medium win symbols, except for the game logo symbol, appears as an overlay on the reels for one spin.

Fairy Surprise

Fairy Wild Spin

Bonus Features

Fairy Surprise

The Fairy Surprise Random Feature is randomly activated in case of a no-win situation in the main game.

A symbol is randomly selected from the symbols on the reels after the spin. Other symbols, starting from the low win symbols, will turn into the selected symbol until a win is awarded.

The Bonus and the Wild symbols can not be selected during this feature.

Fairy Wild Spin

3 or 4 Wild symbols randomly appear on the reels 2, 3 and 4 during the spin.

After the reels stop, and the wins have been paid out, a Sticky Wild Re-Spin is awarded.

All Wild symbols on the reels from the initial spin remain in position on the reels during the Sticky Wild Re-Spin.

An additional Sticky Wild Re-Spin is awarded, if one or more visible Sticky Wilds appear on the reels during the Sticky Wild Re-Spin.

Wild symbols landing behind the Sticky Wilds are not considered visible.

Sticky Wild Re-Spins end when no new visible Sticky Wilds appear during the Sticky Wild Re-Spin.

Bonus Features

3 Bonus symbols appearing on reels 1, 3 and 5 in the main game activate one of the Bonus Features.

To activate a Bonus Feature, the player picks one of three chests.

The 3 Bonus Features are: Beware the Wolf Bonus, Free Spins and Coin Win.

Beware the Wolf Bonus Game

When the Beware the Wolf Bonus is activated, the player is awarded a board game-type Bonus Game. The player spins a whirligig by clicking the game screen to move around the board and win coins. The player starts at position 0. The multiplier ranges from x1 to x20 times the bet.

The game has 5 types of locations: Coin Win, Double, Arrow, Jackpot Coin Win and Collect. When the player lands on the Coin Win location, a coin win is awarded. The coin win amount is equal to the current bet multiplied by the multiplier indicated on the location.

When the player lands on the Double location, all multipliers in the Bonus Game, including the Jackpot Coin Win multiplier, are doubled. The multiplier does not apply to any coin wins collected so

far in the Bonus Game.

When the player lands on the Arrow location, the player moves along the arrow on the next move. When the player lands on the Jackpot Coin Win location, the Beware the Wolf Bonus ends and a jackpot coin win is awarded in addition to the coin wins collected so far in the Bonus Game.

The Jackpot Coin Win amount is equal to the current bet multiplied by the x100 or the x200 Jackpot Coin Win multiplier. The latter is possible, if the player previously landed on the Double location.

When the player lands on the Collect location, the Beware the Wolf Bonus ends and the coin wins collected so far are awarded.

Free Spins

Free Spins Background

Free Spins

When Free Spins are activated, the player is awarded with 10 Free Spins. Free Spins are played at the same bet level and coin value as the round that activated Free Spins.

During Free Spins, 1 Bonus symbol that lands on the reels awards 2 additional Free Spins. 2 Bonus symbols award 4 additional Free Spins and 3 Bonus symbols award 10 additional Free Spins.

In Free Spins, Bonus symbols can only appear on reels 1, 3 and 5.

In Free Spins, 2 or more Wild symbols appearing on the reels act as Sticky Wilds and award a Sticky Wild Re-Spin. In Free Spins, Sticky Wild symbols can appear on all reels.

Bonus symbols can not appear on the reels during the Sticky Wild Re-Spins. The total win field includes any wins during Free Spins added to any wins from the round that activated Free Spins.

Randomisation

RANDOM NUMBER GENERATOR (RNG)

The algorithm used for random number generation (RNG) is Fortuna, a cryptographically secure pseudorandom number generator (PRNG) devised by Bruce Schneier and Niels Ferguson. For more information, see the document Random Number Generation.

The Random Number Generator and its implementation has been tested and approved/certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.

Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.

If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

In case of an "out of money" event, an "out of money" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

(Italy jurisdiction only) Further information on management of malfunctions is also described in section 3.2.1 of the Gaming Platform (Progetto Della Piattaforma Di Gioco) document. This document provides details on how a player is informed of balance return payments and the technical process.

Information regarding session timeouts and malfunctions is provided to the player via the game rules. Specifically, the player is informed that "In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded."

Information to the Player

Players receive a response required message every hour of continuous play: They cannot continue playing unless they respond to the message which provides them with details about the amount bet and won so far during game play.

Players also have access to their game session history and game rules from within the game at all times.
