GAME DESIGN

Hook's Heroes™ graphics

Game Theme & Graphics

Hook's Heroes™ unique features include the Feature Spin mode and the Free Spins mode, allowing players (during the Free Spin mode) to choose which exciting feature to activate for their Free Spins. Different backgrounds are used in each Free Spin mode of play. Hook's Heroes™ also features Wild substitutions and Scatter symbols.

When 2 or more Scatter symbols appear on the reels, it creates bountiful excitement and suspense as players know they will experience either a single Feature Spin or Free Spins.

Main game

Main Game

Players can select the coin value and bet level before starting the game round.

Wild symbol

Game actions

The buttons on the key pad perform the following different game actions:

	Clicking the left and right arrows increases and decreases the bet level (i.e. number of coins per bet line) by 1. To increase or decrease faster, the player can click and drag the slider below.
	Clicking the Spin button starts a game round at the current bet level and coin value.
	MAX BET plays the game at the highest bet level and the current coin value.
	Clicking the left and right arrows increases and decreases the coin value to the next level.
	Clicking AUTOPLAY automatically plays the game for the selected number of rounds.

Feature Spin activated

Free Spins activated
Choose a Free Spins Feature
Mermaid Feature

Feature Spins & Free Spins

There are 3 different types of spin features that can be activated during Free Spins or a single Feature Spin.

The 3 feature names are: Fairy Feature, Mermaid Feature and the Pirate Feature.

In the Fairy Feature, each spin will have between 2 and 5 overlay Wilds placed on the reels in random positions.

In the Mermaid Feature, all wins are multiplied by 2 unless the win combination contains 1 or more Wilds when the wins are instead multiplied by 4.

In the Pirate Feature, wins are calculated on the number of visible symbols on the reels instead of on winning bet lines; meaning that the symbols do not need to appear on consecutive reels. For example, in the Pirate Feature, if there are 4 of the same symbol visible anywhere on the reels this pays the same as if there are 4 of the same symbol on a winning bet line in the main game. There are no Wilds on the reels during the Pirate Feature.

2 Scatter symbols appearing anywhere on the reels awards 1 free Feature Spin with a randomly chosen feature.

3 Scatter symbols appearing anywhere on the reels award Free Spins. The player can choose which of the 3 features they want in play during Free Spins.

4 or 5 Scatter symbols appearing anywhere on the reels in the main game award 2 or 3 Free Spins picks respectively. A player can make the same choice 2 or 3 times in a row if 4 or more Scatters appear on the reels.

If 2 or 3 Free Spins rounds are won, after the first and, if 3 are won, second rounds are completed, the player returns to the Free Spin feature selection screen to choose their Free Spin feature for the
upcoming round of Free Spins.

- Feature spin: €194 800 / 194 800 coins - max win in feature

Note: The maximum win of a game round may be higher than the maximum coinciding win, since a game round may include several spins.

PAYOUT RULES IN MAIN GAME

- Bet line wins are multiplied by the number of coins bet per bet line.
- Wild symbol substitutes for all symbols, except the Scatter symbol.
- A bet line win in coins is equal to the value shown in the PAYTABLE multiplied by the bet level.
- Only the highest win per active bet line is paid.
- Bet line wins pay if in succession from left to right.
- All coin wins pay on bet lines only.
- Simultaneous wins on different bet lines are added.

PAYOUT RULES IN FEATURE SPINS AND FREE SPINS

- There are 3 different types of spin features that can be activated during Free Spins or a single Feature Spin.
- The 3 feature names are: Fairy Feature, Mermaid Feature and the Pirate Feature.
- In the Fairy Feature, each spin will have between 2 and 5 overlay Wilds placed on the reels in random positions. When only 2 Wilds are awarded, 1 of the Wilds must be placed on either reel 1, 2 or 3.
- In the Mermaid Feature, all wins are multiplied by 2 unless the win combination contains 1 or more Wilds when the wins are instead multiplied by 4.
- In the Pirate Feature, wins are calculated on the number of visible symbols on the reels instead of on winning bet lines; meaning that the symbols do not need to appear on consecutive reels. For example, in the Pirate Feature, if there are 4 of the same symbol visible anywhere on the reels this pays the same as if there are 4 of the same symbol on a winning bet line in the main game. There are no Wilds on the reels during the Pirate Feature.
- 2 Scatter symbols appearing anywhere on the reels awards 1 free Feature Spin with a randomly chosen feature.
- 3 Scatter symbols appearing anywhere on the reels awards Free Spins. The player can choose which of the 3 features they want in play during Free Spins.
- 4 or 5 Scatter symbols appearing anywhere on the reels in the main game award 2 or 3 Free Spins picks respectively. A player can make the same choice 2 or 3 times in a row if 4 or more Scatters appear on the reels.
- If 2 or 3 Free Spins rounds are won, after the first and, if 3 are won, second rounds are completed, the player returns to the Free Spin feature selection screen to choose their Free Spin feature for the upcoming round of Free Spins.
- Feature and Free Spin wins are added to any initial bet line wins.
- Additional Free Spins cannot be won during Free Spins.
- Additional Feature Spins cannot be won during Feature Spins.

ADDITIONAL INFORMATION

Randomisation

Random Number Generator (RNG)

The algorithm used for random number generation (RNG) is Fortuna, a cryptographically secure pseudorandom number generator (PRNG) devised by Bruce Schneier and Niels Ferguson. For more information, see the document Random Number Generation.

The Random Number Generator and its implementation has been tested and approved/certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.
Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.
If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

In case of an "out of money" event, an "out of money" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

Out of Money

Please deposit more money to continue playing.

Close
(Italy jurisdiction only) Further information on management of malfunctions is also described in section 3.2.1 of the Gaming Platform (Progetto Della Piattaforma Di Gioco) document. This document provides details on how a player is informed of balance return payments and the technical process.

Information regarding session timeouts and malfunctions is provided to the player via the game rules. Specifically, the player is informed that "In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded."

Information to the Player

Players receive a response required message every hour of continuous play: They cannot continue playing unless they respond to the message which provides them with details about the amount bet and won so far during game play.

Players also have access to their game session history and game rules from within the game at all times.
