GAME DESIGN

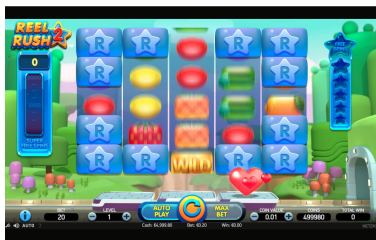

Break-Down of Reel Rush 2 Features

Random Features

In the main game and Re-Spins, between 0 to 3 features can be randomly awarded after each spin: Second Chance, Block Breaker, Random Wilds, Symbol Multiplier, Symbol Upgrade, and Extra Super Tokens.

In Free Spins and Super Free Spins, Extra Free Spins can be randomly awarded, while Multiplier Boost only occurs during Super Free Spins.

Second Chance

Second Chance

In the main game and Re-Spins, the reels re-spin in case of a no-win situation.

Block Breaker

Block Breaker

If Block Breaker is awarded, 2 or 4 blocks are unlocked, and the reel area is expanded.

Random Wilds

Random Wilds

When Random Wilds is activated, between 1-3 Wild symbols randomly land on the reel area.

Symbol Multiplier

Symbol Multiplier

When Symbol Multiplier is activated, a random symbol is awarded a x5, x10, x15 or x20 multiplier for all wins with this symbol. This Random Feature can be awarded more than once to different symbols during the same spin.

Symbol Upgrade

Symbol Upgrade

When Symbol Upgrade is activated, a random symbol is awarded an upgrade. It is substituted then with a symbol one level above the original one according to the Paytable.

Extra Free Spins

Extra Free Spins

When this Random Feature is activated, one additional Free Spin is awarded.

Extra Super Tokens

Extra Super Tokens

Either 3 or 15 tokens are added to the Super Token Meter.

Multiplier Boost

Multiplier Boost

When Multiplier Boost is activated, the Progressive Multiplier Meter is increased by 1. This feature can be granted more than once during the same spin, and only in Super Free Spins mode.

Free Spins

Free Spins

Unlocking all the play area activates 8 Free Spins. Then a window pops up, and players are awarded 3 options: Buying Super Tokens (2000, 1000 or 400) to reach 2000 tokens and unlock Super Free Spins directly; gambling for the chance to enter Super Free Spins or just entering Free Spins.

Super Free Spins & Progressive Multiplier Meter

Super Free Spins & Progressive Multiplier Meter

When the Super Free Spins feature is activated, 2000 Super Tokens will be removed from the Super Token Meter. The Progressive Multiplier meter increases by x1 each time a win occurs or when the Multiplier Boost Random Feature is activated.

Super Tokens

Super Tokens

Each time a block is unlocked, 1 to 5 tokens are collected into the Super Token Meter. Tokens can also be awarded in the Extra Super Tokens Random Feature, purchased via the Super Token Buy feature or won during the Gamble Feature. The combination of bet level and coin value affects the number of collected Super Tokens.

PAYOUT

Payout Summary

GAME RETURN TO PLAYER (RTP)

- Total: 95.53%
- Main Game: 56.3%
- Free Spins: 26.0%
- Super Free Spins: 13.2%
- Buy Super Free Spins with 400 or 1000 stars: 96.22%
- Buy Super Free Spins with 2000 stars: 96.58%
- The theoretical RTP for this game can range from 95.53% - 96.58%. The percentage depends on what strategy the user chooses after activating Free Spins. Strategies that involve purchasing Super Tokens, rather than using the Gamble Feature or just entering Free Spins give a slightly higher RTP on average.

HIT FREQUENCY

- Total: 28.7%
- Free Spins: 1 in 85
- Super Free Spins: 1 in 433

ADDITIONAL INFORMATION

Randomisation

Random Number Generator (RNG)

The algorithm used for random number generation (RNG) is Fortuna, a cryptographically secure pseudorandom number generator (PRNG) devised by Bruce Schneier and Niels Ferguson. For more information, see the document Random Number Generation.

The Random Number Generator and its implementation has been tested and approved/certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.

Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.

If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

In case of an "out of money" event, an "out of money" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

(Italy jurisdiction only) Further information on management of malfunctions is also described in section 3.2.1 of the Gaming Platform (Progetto Della Piattaforma Di Gioco) document. This document provides details on how a player is informed of balance return payments and the technical process.

Information regarding session timeouts and malfunctions is provided to the player via the game rules. Specifically, the player is informed that "In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded."

Information to the Player

Players receive a response required message every hour of continuous play: They cannot continue playing unless they respond to the message which provides them with details about the amount bet and won so far during game play.

Players also have access to their game session history and game rules from within the game at all times.

Game Simulation

A demo version of the game is available at <http://www.netent.com/games/>
