- Collecting 5 gems of the same color awards the corresponding Jackpot.
- Gems appear in all Free Spin modes and are not saved between Free Spin sessions.
- Free Spin multipliers do not apply to Jackpot wins.

JACKPOT RULES

- All Jackpots are progressive. 3.8% of each bet is contributed to the Jackpots.
- None of the Jackpots have a ceiling value, meaning: they do not have a limit before they pay out.
- Jackpot Wins are subject to verification by the operator and the supplier. All decisions are final and no correspondence will be entertained.
- The Jackpot values are displayed at the top as recorded on the supplier's server. Every effort is made to ensure that the progressive Jackpot values displayed in the game are the same as the ones on the supplier's server.
- Jackpots cannot be won when Playing For Fun.
- The probability to win the Jackpot in each spin is proportional to the player's bet size.
- All 5 Jackpots can be won in a single Jackpot Free Spins round.
- No simultaneous Jackpot win by two or more players is possible for the same Jackpot; when one game round makes a claim for a certain Jackpot, it is simultaneously assured that no other game round can claim the same Jackpot. In the event of two players seeming to have won at the same time, due to network latency or other reasons one will always be first.

The start values for the jackpots are always:

Or the equivalent in your chosen currency.

HOW TO CALCULATE PAYLINE WINS

- To calculate your total payline coin win, calculate all payline wins and add them together.
- To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the far left.
- If three or more identical symbols lined up, find the coin win value in the Pay Table. There you can for all symbols find the value for 3 in a row, 4 in a row, and 5 in a row. Only the highest winning combination per line is paid out.
- The above doesn't include any Scatter symbols which pay scattered.
- Calculate the total win in your home currency by multiplying the total coin win with your coin value.
