FREEZE AND RE-SPIN

When the player gets at least three of the same symbol (except Joker Symbols) on a payline, the winning symbols freeze and the game automatically spins again, with the winning symbols held. If a new symbol of the same kind appears during the respin, this also freezes and another re-spin is awarded. This continues until no new symbol freezes. Should winning symbols of another kind appear during a re-spin, these symbols do not freeze but the winnings are paid out immediately.

COLUMN MULTIPLIER

The column multiplier is activated when all symbols in a column are equal. The number of completed columns is counted from left to right, and the final prize is multiplied by this number. For example, if the two leftmost columns are filled with the same symbol, the final prize is multiplied by two.

TRIGGERING JACKPOT SPINS

Jackpot Spins are triggered when a joker symbols lands on each reel.

PLAYING JACKPOT SPINS

When 5 jokers landed, 5 mystery wins are immediately awarded. Then the 5 jokers freeze, and the game re-spins as long as new jokers land, similar to the freeze & re spin feature. Each additional landing joker contains a mystery win that is immediately awarded.

Game Rules

Welcome to Joker Millions video slot with Progressive Jackpot, Freeze & Re-spin feature, column multiplier and mystery wins.

Joker Millions is a Video Slot with 5 reels, 3 rows and 25 paylines that pay from left to right. There are seven regular
symbols and a Joker symbol. The Joker symbols trigger the Jackpot Spin if a Joker symbols appear on each reel. The regular symbols win if three or more are lined up on a payline beginning from the leftmost position.

FREEZE & RE-SPIN

When regular symbols win, the Freeze & Re-spin feature is activated. Before the win is paid out, all instances of the

COLUMN MULTIPLIER

Should a number of consecutive columns counted from the leftmost column be filled with the same symbol, the win is multiplied. The multiplier is equal to the number of consecutive columns filled, counted from the leftmost position.

JACKPOT SPIN

A Joker on each reel will trigger the jackpot spin. Five mystery wins are immediately awarded. The Joker symbols freeze, and the game re-spins as long as new joker symbols land. Each additional joker symbols awards an additional mystery win. The mystery wins range between 5 and 1000 coins. The mystery wins are more likely to be larger the more jokers collected. If the full screen is filled with 15 jokers, you win the jackpot.
