Game Rules

Welcome to Ozwin's Jackpots Video Slot with the Spellbook bonus, Crystal collections and Jackpot Free Spins with 5 local progressive Jackpots!

ABOUT THE GAME

Ozwin's Jackpots is a Video Slot with 5 reels and 20 paylines oriented from left to right. The game has eight regular symbols that win if three or more are lined up in sequence on a payline, beginning from the leftmost position. There is a Spellbook Bonus symbol and a Free Spin symbol that activates if 3+ appear anywhere on the reels. Jackpot Free Spins are also triggered by collecting crystals and in those Free Spins players can collect orbs to win Jackpots.

Main Features

Jackpot Free Spins from landing Free Spin Symbols

- Land 3 Free Spin symbols in the base game to trigger 10 Jackpot Free Spins.
- Land 4 Free Spin symbols to trigger 10 Jackpot Free Spins with an extra 1000 coins.
- Land 5 Free Spin symbols to trigger 10 Jackpot Free Spins with an extra 10000 coins.
- Jackpot Free spins activated this way use the coin value and lines of the activating spin.

Jackpot Free Spins from collecting Crystals

- Collect 5 crystals of the same color in the Base game and/or in the Spellbook Bonus game to trigger 10 Jackpot Free Spins.
- Multiple Jackpot Free Spins can be triggered in a single spin, in which case, each round is separate and is played one after the other.
- The 5 collected crystals turn into the first orb for the Jackpot collection, meaning; players only need to collect 4 more orbs of the same color to get that Jackpot.
- Jackpot Free Spins are played with the same lines and with the average coin value of the coin values that were used in the rounds that collected each individual crystal.
- All collected crystals are saved between game sessions.

All line wins in Jackpot Free Spins receive a 3x multiplier. Jackpot Free Spins cannot be retrigged and do not contain Bonus symbols or crystals.

The Jackpots

- Collecting 5 orbs of the same color awards the corresponding Jackpot.
- Orbs only appear in Jackpot Free spins and are not saved between Free Spin sessions.

Jackpot Rules

- All Jackpots are progressive. 3.4% of each bet is contributed to the Jackpots.
- None of the Jackpots have a ceiling value, meaning: they do not have a limit before they pay

out.

- Jackpot Wins are subject to verification by the operator and the supplier. All decisions are final and no correspondence will be entertained.
- The Jackpot values are displayed at the top as recorded on the supplier's server. Every effort is made to ensure that the progressive Jackpot values displayed in the game are the same as the ones on the supplier's server.
- Jackpots cannot be won when Playing For Fun.
- The probability to win the Jackpot in each spin is proportional to the player's bet size.
- All 5 Jackpots can be won in a single Jackpot Free Spins round.
- No simultaneous Jackpot win by two or more players is possible for the same Jackpot; when one game round makes a claim for a certain Jackpot, it is simultaneously assured that no other game round can claim the same Jackpot. In the event of two players seeming to have won at the same time, due to network latency or other reasons one will always be first.

The start values for the jackpots are always:

- Jackpot 1 - €40
- Jackpot 2 - €200
- Jackpot 3 - €600
- Jackpot 4 - €1000
- Jackpot 5 - €2500

The 3.4% contribution to current jackpots is split in the following way:

- Jackpot 1 - 0.5%
- Jackpot 2 - 0.5%
- Jackpot 3 - 0.5%
- Jackpot 4 - 0.5%
- Jackpot 5 - 1.4%

HOW TO CALCULATE PAYLINE WINS

- To calculate your total payline coin win, calculate all payline wins and add them together.
- To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the far left.
- If three or more identical symbols lined up, find the coin win value in the Pay Table. There you can for all symbols find the value for 3 in a row, 4 in a row, and 5 in a row. Only the highest winning combination per line is paid out.
- The above doesn't include any Free Spin and Bonus symbols which pay scattered.
- Calculate the total win in your home currency by multiplying the total coin win with your coin value.
